

Gullifty's All Natural **homemade** **ICE CREAM**

*Ask your server for
today's flavors!*

All of our super-premium homemade ice cream is made on premises with locally sourced cream from Long Acres Modern Dairy and sweetened with organic cane sugar. We never use artificial flavoring in any of our ice cream. We use 100% pure Vanilla Extract and NEVER use artificial Vanilla.

The overrun for our ice cream is 35%. To be considered super-premium ice cream the overrun must be below 50%. An overrun in ice cream making is the amount of air vs. cream. The lower the percentage the richer, creamier, and more satisfying your ice cream will taste. We also invested in a blast chiller to prevent crystallization.
